#### **Important Notice and Disclaimer**

As responsible entity of the Skyring Fixed Income Fund ARSN 622 775 464 (Trust or Fund), Skyring Asset Management Limited ABN 92 156 533 041 (Skyring or Us or We) is the issuer of this update disclosure guide (Guide) which should be read in conjunction with the product disclosure statement dated 15 March 2018 (repealed), product disclosure statement dated 21 December 2018 (repealed), product disclosure statement dated 1 September 2020, collectively referred to as the Product Disclosure Statement (PDS), and the Supplementary PDS (SPDS) dated 30 September 2022. All figures and events referred to in this Guide are accurate as at 31 December 2023, unless stated otherwise.

Information in this Guide is general information only and does not take into account your objectives, financial situation or needs. Therefore, in deciding whether to acquire or continue to hold an investment you should consider the PDS, SPDS, and Guides to it carefully and assess, with or without your financial or taxation adviser, whether the product meets your objectives, financial situation or needs.

#### Scope of this Disclosure Guide for Unlisted Mortgage Schemes

The Australian Securities and Investments Commission (ASIC) issues regulatory guides (RGs) to assist regulated entities, of which Skyring is one, by publishing practical guidance on ASIC's explanation on how they apply the law together with describing the principles under which ASIC approach to interpretation of the Corporations Act (2001) provisions and regulations. These regulatory guides set out particular disclosure principles and benchmarks designed to provide improved disclosure to retail investors to help them compare risks and returns across investments in the unlisted mortgage scheme sector.

ASIC has developed 8 benchmarks and 8 disclosure principles for unlisted mortgage schemes to assist retail investors to understand the risks, assess the rewards being offered and decide on whether these investments are suitable for them. These benchmarks apply to schemes, which have, or are likely to have, at least 50% of their non-cash assets invested in loans that are secured by mortgage over real property and/or unlisted mortgage schemes.

The benchmarks and disclosure principles are designed to help retail investors to understand the risks, assess the potential rewards and to make an informed investment decision.

Although the fund is not an unlisted mortgage scheme, it invests solely in Notes issued by Skyring Capital and Skyring Capital uses these proceeds to provide loans, and will rely on interest payments and loan repayments by borrowers to meet its obligations to make coupon payments on, and to redeem, Notes.

Accordingly, the underlying investment exposure of an investment in the Fund is akin to an investment in a mortgage scheme. Consequently, we have included details in relation to ASICs benchmarks and disclosure principles as they apply to Skyring Capital's business and, where applicable, the Fund, to assist investors in making an informed decision about whether or not to retain an investment in the fund. However, this section does not contain all the disclosure principle information, which would be required to be in a product disclosure statement for an unlisted Mortgage Scheme.

Set out below are tables, which list each benchmark and disclosure principles and whether relevant information is included in this Guide and the PDS and SPDS.
